Adolescent Odyssey

Vergennes Union Middle School is preparing their 5th annual presentation on November 14, at the University of Vermont medical school. Their presentation will be on adolescence from an adolescence prospective. On this day, who was going to be teaching who. CC Chamberlain, a middle schooler on the team, talks to us about why they are doing this, "it's to teach 7th graders and medical students about awkward topics we usually wouldn't talk about. Then they will be able to use the information we give them, so they can become better doctors of adolescence."

They will be making a slide show with a media piece on their topic to present. "It will be a learning experience for all of us!"-CC Chamberlain (Written by: Aliya Hugo)

Bridge Reopened- The Mill Pulp Bridge connecting Middlebury to Weybridge over Otter creek was rebuilt and reopened on November 17, 2012. The bridge was constructed in 1800-1820, now refurbished with exterior wood, including security lighting and asphalt approaches. With the help of improved technology and equipment it made it possible restore the bridge for permanent use and history as the oldest 2 lane covered bridge in the country. (by Carl Richey)
